

PICTURE OF GINA AS A CHILD

My daddy was always taking pictures of me and my brother when we were **young**. He loves taking pictures of **lovely** places and people.

He also loves travelling, so he has an album of every trip he did. I love taking these albums and see how I've changed.

Now, I don't have that **curly** hair and the **small** teeth. As you can see, I was always smiling, I was very **friendly**. I love these pictures, they make me feel **nostalgic**.

GLOBE (EARTH)

When I was young, my family used to take me around the world. So, since then, I'm an **adventurous** person and I love travelling!

I visited places such as Egypt, New York or Jordania, and now, I'm looking for my next trip!

Every time I think about travelling, I feel **animated**!

SPORT

"A **healthy** lifestyle changes your body, your mind, your attitude and your soul". Although I am very **calm**, I love to feel **active** and practice different sports.

I try to go to the gym every day and do zumba, body pump or body combat, it makes me feel **energetic** and **motivated**.

And every day, when I go out of the gym I feel **renewed**.

DRAWINGS AND PUZZLES

I am a **quiet** person and I love to meditate. To do so, I usually put some **relaxing** music and take a pencil to draw. When I was young, I used to make puzzles, and it helped me to concentrate.

Art is very important in my life, it makes me feel **inspired**, and I love to disconnect and connect with myself.

PICTURE OF LAS VEGAS

I love speaking English, and, as you, I learned it at school. But, when I was 22 years old, I went to California for a month.

It was a new adventure for me, and I felt very **brave**.

There, I met a lot of **interesting** people. They were

Chinese, Mexican, Brazilian...

From all around the world! That made me feel **curious** about their life.

LIFE IS BEAUTIFUL (FILM AND SONG)

There is a connexion between my favourite film and my favourite song; they are both the same.

I love the film "life is **beautiful**" and I also love its song.

These film always makes me feel **sad**, but it is an **adorable** story.

DOG

As you can imagine, I love English. When I was young, I used to watch films in English to learn more every day.

And another thing I love are pets, I think they are **adorable**.

In my case, I have an English Bulldog, but that's just a coincidence!

She is called Nana, and she is very **fearful**. She loves to be in the sofa **relaxed** and she is very **sleepy**, she can sleep twenty hours per day!

SANT CUGAT (FLAG)

I was born in Sant Cugat del Vallès 31 years ago, and nowadays, I still live in Sant Cugat. Sant Cugat is a city next to Barcelona, situated in Vallès Occidental region.

It is very **big**, with 92977 inhabitants. The colours of my city are **red** and **black**, and all the teams of the different sports wear these colours.

My city makes me feel **safe** and I think it is very **pretty**, it has a lot of **green** areas and the streets are **beautiful**.

GRANADA (ALHAMBRA)

My mum was born in Granada, and Granada is my favourite part of the world. I love going there and to spend my summer with all my family, it makes me feel **relaxed**.

The most important building in Granada is the Alhambra. The Alhambra is a **beautiful** Islamic palace, and its name means "the **red**" because of the colour of its walls. It is an **amazing** construction.
