L'HORARI I EL TEMPS

Es recullen els principals signes per designar els conceptes bàsics dels temps físic.

Si el que volem és establir la **durada** d'alguna acció, seguirem la següent estructura:

a) D'1 a 5 hores

Utilitzarem la mà dominant de dues maneres, o bé sobre el canell on es porta el rellotge o bé a l'espai neutre.

b) De 6 a 10 hores

Només podrem usar l'espai neutre i amb totes dues mans marcarem, 6, 7, 8, .. amb el mateix moviment.

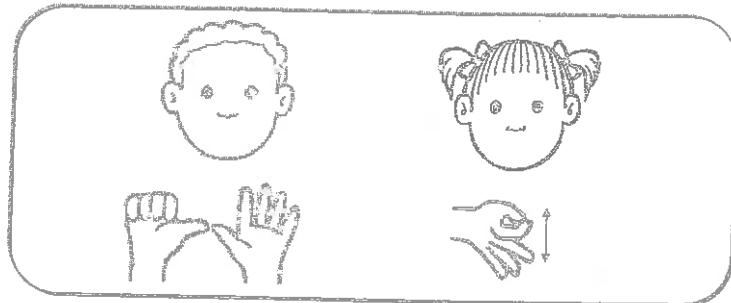

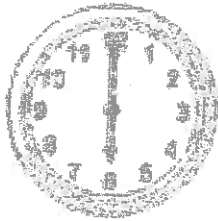

c) 11 hores o més

S'usa l'espai neutre usant 2 signes: NOMBRE + HORA.

Per dir l'hora, s'usa la mateixa estructura que en el castellà oral.

➤ El temps

Dies i setmanes

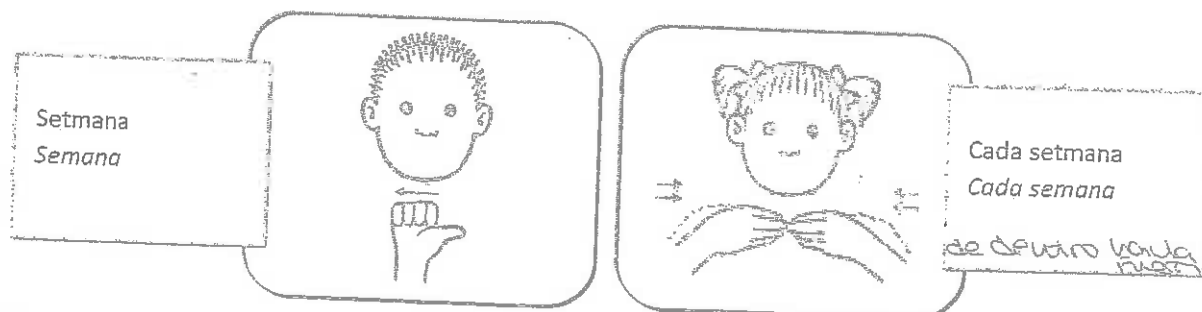

A) Dia. S'utilitzen diferents signes per la paraula dia, però el més genèric és el que es mostra a continuació.

Més signes que fan referència a diferents moments del dia, són:

B) Setmana.

Expressions : abans i després

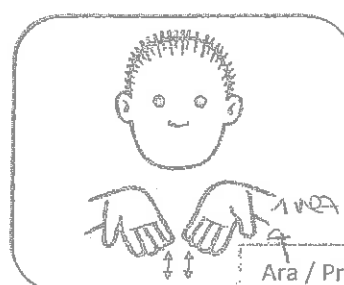

En les llengües de signes s'ha desenvolupat un espai codificat com a present, passat i futur, tenint en compte el cos de la persona signant com a punt de referència bàsic. Així doncs, la senyalització enrera, cap a l'esquena, expressa passat, i cap endavant, indica futur. Les accions que es realitzin a l'espai més pròxim al cos, indiquen present.

El gènere

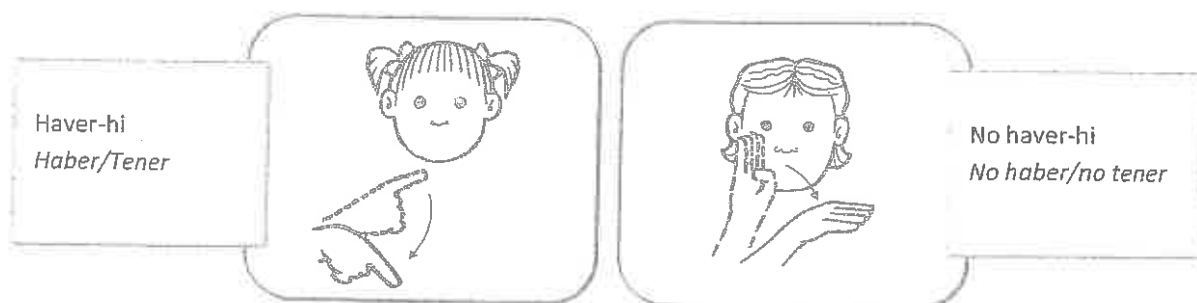

Juntament als signes que expressen gènere com pare, mare, sogre, jove, etc... n'hi ha d'altres que són iguals tant pel masculí com pel femení; per aquest motiu cal especificar el gènere corresponent, generalment després del signe tot i que en ocasions, per comoditat o altres motius, el gènere s'indica abans dels signe.

➤ Preguntant per la família

El verb haver-hi

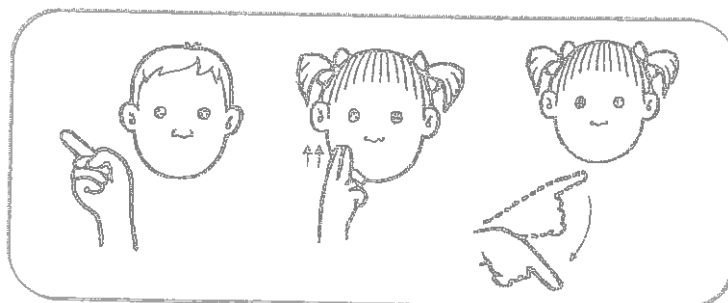

El verb haver-hi és un verb que en LSC es signa diferent en les seves formes afirmativa i negativa.

→ IMPORTANT:

Els adjectius com ara GROS / GRAN, CURT, LLARG o PETIT, van molt lligats a la forma que tingui l'objecte. Per aquest motiu no sempre es signarà com està recollit en aquest document, sinó que, en moltes ocasions, el signe adoptarà la forma del mateix objecte.

➤ Els verbs en LSC: No direccionals.

És important saber alguns aspectes sobre la posició del verb a les frases i com els verbs utilitzen l'espai; és a dir, com incorporen informació respecte el subjecte de l'acció i sobre qui recau aquesta.

- La posició

La posició del verb a la frase, quan és afirmativa i coincideix amb l'últim component, va al final. Aquesta regla s'aplicarà com a norma general, tot i que en alguns casos no s'actuarà així.

- Tipus de verbs

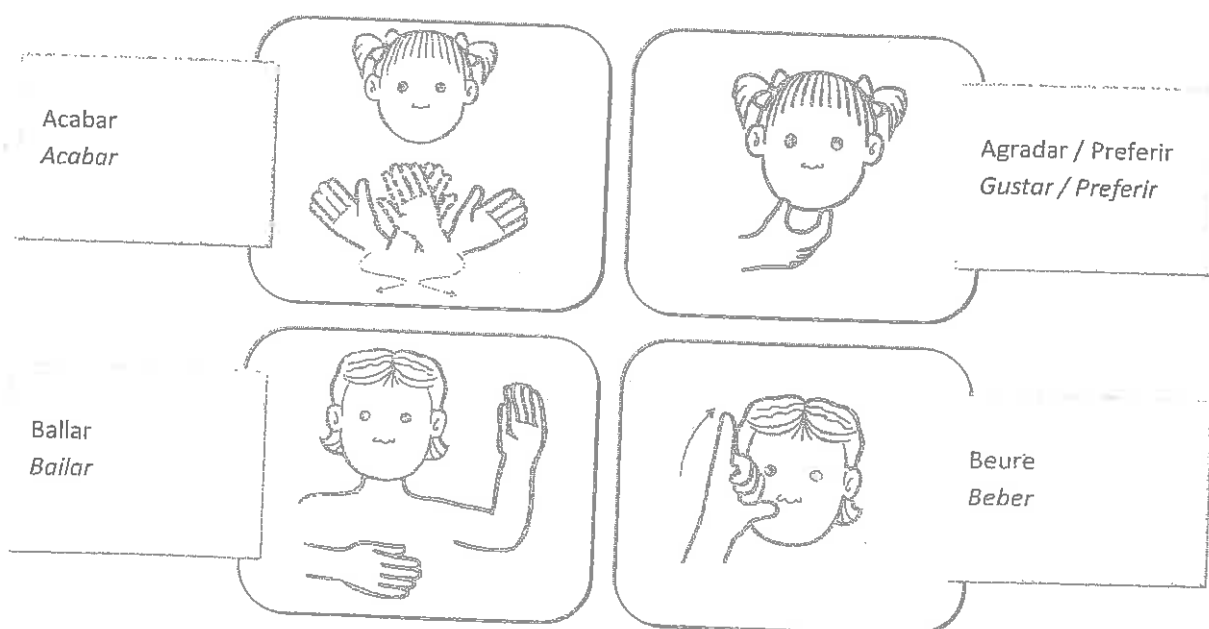

L'espai en les llengües de signes no només serveix per articular-hi el signe, sinó que també serveix per establir les relacions entre les diferents parts de l'oració, per exemple entre les persones i l'acció.

Els verbs utilitzen l'espai de manera molt diferent per establir el subjecte de l'acció, la pròpia acció del verb, el lloc on es produeix i sobre qui o què recau l'acció. Uns verbs ho fan d'una manera i una altres d'una altra; a aquest motiu correspon la classificació dels verbs que anirem veient.

Es poden usar diferents classificacions, però nosaltres seguirem la següent:

○ Verbs no direccionals

Són els que en la seva realització no especifiquen el subjecte de l'acció i per això cal establir-lo mitjançant el signe corresponent.

➤ Els verbs en LSC: Direccionals.

○ Verbs direccionals

Per a alguns autors, el paràmetre que determina que un verb sigui direccional, és la **direcció del moviment**; aquesta disposa de la informació lingüística del subjecte i sobre qui recau l'acció verbal. És a dir, el signe inclou informació del subjecte i de l'objecte, de manera que si el signe s'inicia a prop del cos i acaba en l'espai neutre significa que qui signa és el subjecte de l'acció. En cas contrari, quan s'inicia el verb en l'espai neutre i el seu moviment acaba al nostre cos, deixa definit que nosaltres som l'objecte de l'acció.

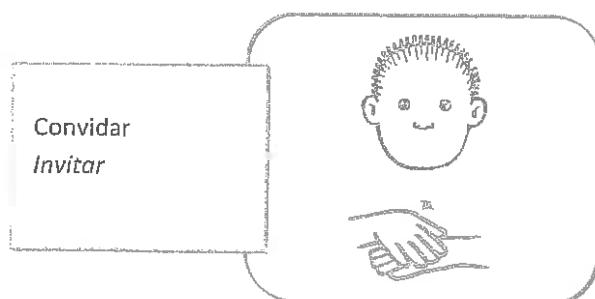

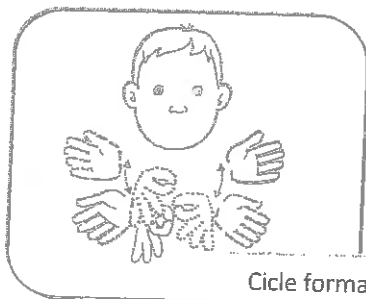

❖ Espai neutre

És l'espai que està davant nostre en el que signem de forma natural i còmoda els signes.

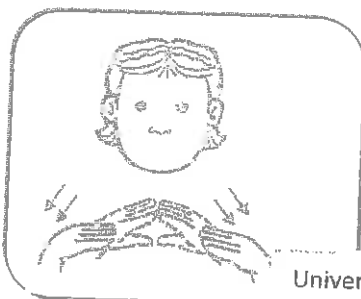

- Casos especials i exemples

Hi ha alguns verbs que funcionen de manera contrària completament al que acabem d'explicar: un exemple d'aquestes excepcions és el verb **convidar**:
